## Half-day Tour

## Doonside

Wednesday, May 5

Your Hosts, Billy and Jo Geddes welcome you for a half day tour of Bill and Kay Geddes' "Doonside". Located some 40 minutes from the Rockhampton Showgrounds the morning will tour the 8,000 hectare multi breed Grazing Enterprise.

'Doonside' is a high quality generational grazing property located to the north of Rockhampton featuring a diverse mix of country and pasture types.

This coastal property is in a high rainfall region and serviced by the Alligator Creek and showcases a variety of pasture improvement projects including both the pondage pasture infrastructure as well as a new improved pasture planting technique trial.

The Geddes operate a multi breed commercial and stud enterprise which has been refined over a lifetime with Bill Geddes to feature the emerging Grey Brangus Stud reviewing the upcoming progeny and discussion the features of this breed.

The Wagyu commercial enterprise operated by Billy and Jo focusses on producing a consistent quality product through good supply chain management from the grassfed weaner through to the branded boxed beef product and a world class eating product.

This tour will provide guests an opportunity to understand not just the production aspect of a high quality beef product but will also include full paddock to plate experience; an eating experience to be remembered.

'Doonside' is a one-of-a-kind coastal property in close proximity to Rockhampton and has featured in several property tours in the past and is back by popular demand.
